

Gautam Parmar – Full Stack Developer

Verona, Italy · +39-352052606 · gparmar54linkedin@gmail.com · linkedin.com/in/gautam-parmar-728a381ba · github.com/gautam-parmar-ai · Portfolio: <https://gautam-parmar-portfolio.vercel.app/>

PROFESSIONAL SUMMARY

Frontend and Full Stack Developer with over 3+ years of professional experience building responsive web applications and e-commerce solutions. Proficient in the MERN stack (MongoDB, Express.js, React.js, Node.js) alongside WordPress, WooCommerce, and SEO-optimised development. Adept at translating design concepts into performant, cross-device interfaces and integrating REST APIs, payment gateways, and cloud services. Seeking a junior developer or frontend engineering role in a collaborative European tech environment.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), Next.js, HTML5, CSS3, Tailwind CSS, Chakra UI, React Router DOM, Axios, Vite, Responsive Web Design

Backend: Node.js, Express.js, REST APIs, JWT Authentication, Bcrypt

CMS & E-comm: WordPress, WooCommerce, Theme & Plugin Development

Database: MongoDB, Mongoose

Cloud & Media: Cloudinary, Multer, AWS

Payments: Stripe API Integration

Tools: Git, GitHub, Postman, VS Code, EmailJS

Concepts: Full Stack Development, SEO Best Practices, CRUD Applications, Authentication Systems, State Management, Reusable Component Architecture, API Integration, Agile Methodology

EXPERIENCE

Front End Engineer & SEO Specialist — **The Digital Key** · New Delhi, India · On-site *May 2024 – Jan 2025*

- Developed and customised 15+ WordPress themes and plugins, delivering tailored e-commerce solutions for clients via WooCommerce integration
- Built 20+ responsive, mobile-first websites by converting design assets into component-based HTML, CSS, and JavaScript
- Improved site performance by 30% - 40% through plugin audits, code optimisation, and caching strategies, reducing average page load times
- Implemented on-page SEO best practices in code structure and content, increasing client search engine visibility
- Reduced post-launch technical issues by 25% through proactive maintenance, debugging, and performance monitoring

Front End Engineer — **Max Avex Technology** · New Delhi, India · On-site *May 2023 – May 2024*

- Collaborated with UX/UI designers to translate 25+ complex design mockups into functional, pixel-accurate web interfaces
- Enhanced mobile responsiveness across all projects, ensuring consistent user experience across devices and screen sizes and reducing layout issues by 35%
- Resolved front-end bugs promptly and implemented SEO best practices in code and content structure
- Optimised performance through image compression, code minification, caching techniques, reducing load times by 40%

Full Stack Engineer Intern — **InternNexus** · New Delhi, India · Remote *Aug 2022 – Dec 2022*

- Applied Node.js for server-side scripting, enabling asynchronous request processing and improved application responsiveness
- Integrated 5+ third-party REST APIs for seamless data exchange, enhancing application functionality across services
- Collaborated with cross-functional teams to design and implement solutions for complex business requirements

PROJECTS

Sicilia Collection — Fashion E-Commerce Platform | React.js, Node.js, Express.js, MongoDB, Stripe, Cloudinary, JWT, Axios

GitHub: github.com/gautam-parmar-ai/SiciliaCollection | Live: <https://sicilia-collection.vercel.app>

- Built a full stack fashion e-commerce platform with React.js storefront, dedicated admin panel, and Node.js/Express.js REST API
- Integrated Stripe for secure checkout and Cloudinary for scalable product image management across all catalogue pages
- Implemented JWT authentication to protect user sessions and admin routes, ensuring secure role-based access control
- Deployed backend to Vercel with environment-based configuration, maintaining consistent cross-environment behaviour

Tlovo - Full Stack Food Delivery Web Application | React.js, Node.js, Express.js, MongoDB, Stripe, Cloudinary, JWT, Axios
GitHub: github.com/gautam-parmar-ai/Tlovo | Live: <https://tlovo.vercel.app>

- Built a full stack food delivery platform with React.js frontend and Node.js/Express.js REST API backend
- Integrated Stripe API for secure payment processing, enabling seamless end-to-end order transactions
- Designed responsive UI with Tailwind CSS ensuring cross-device compatibility across mobile and desktop

BG-Removal AI-Powered SaaS Application | React.js, Node.js, Express.js, MongoDB, Stripe, Cloudinary, REST APIs
GitHub: github.com/gautam-parmar-ai/Bg-removal | Live: <https://gp-bg-removal.vercel.app/>

- Developed a SaaS application with AI-driven features using a full MERN stack architecture
- Integrated Stripe subscription billing with role-based access control for tiered user plans
- Connected third-party REST APIs to deliver real-time AI-generated content to the frontend

EDUCATION

Msc in Artificial Intelligence

University of Verona, Verona, Italy

Expected Graduation: 2027

Bachelor's of Computer Application

Guru Gobind Singh Indraprastha University, NewDelhi,India

Graduation: 2020-23

CERTIFICATIONS

Full Stack Developer Certificate — Coding Blocks , 2024
